

實習成果及心得（具體收穫事項、與校內學科學習之相互映證並附活動照片）

One of my achievements while doing my internship at 信傳通訊有限公司 is successfully done some file-reading 閱卷 at the Taichung District Court on April 11, 2025. As someone who does not have any legal background, I am so grateful that this company would like to offer me this unique experience, and also a huge challenge for me as a foreigner in Taiwan. In this business trip, the company let me experience it by myself, and through this experience, I learn more about the workflow of Taiwan's Court, and it helped me a lot in division discussion and strategy making.

檢討建議（含對自我和學校課程的檢視與建議）：

As an international student in Taiwan, in my opinion, having an internship experience is very important as it can help us, fresh graduates, to increase our chances of getting a job. Even though I can not deny that the language barrier might be one of the obstacles for foreigners working in Taiwan, I hope that Wenzao University can help international students to find internship places or activities such as international summits, conferences that align with our department, in my case, the Department of International Affairs.

對實習機構與日後想到該機構實習的學弟妹之建議：

From my personal experience, I'm very satisfied with all the experience that I get in this company, especially in the legal division. I believe that even as an intern, I can acquire all the knowledge and expertise of a full-time employee. I hope that in the future, this company will offer more internship opportunities, as I believe it will help students to get practical knowledge and introduce students to working ethics.
